

Peter Yan

Applications Developer

📞 07818 576958 ✉ y.peter341@gmail.com 🔗 <https://github.com/Peterloveprogramming> 📍 London , UK

SUMMARY

A certified full-stack developer with in-depth knowledge of JavaScript and Python. Proven track record of developing scalable and user-friendly applications that are easy to maintain. I am fluent in both English and Mandarin, and I am excited about utilizing my skills and experience within an ambitious and employee-centric organization that prioritizes career progression. I want to make a significant contribution to its success by leveraging my skills and knowledge

EXPERIENCE

Javascript Developer

SmartBrain Project

📅 2023 - Present 📍 London, UK

SmartBrain synergistically combines React.js, a RESTful API for image recognition, a self-hosted Node.js server, and a Postgres SQL database. It helps to detect a face in a picture provided by the user through the URL of the image. The user's rank gets upgraded every time user detects an image in a picture.

See the Project at <https://github.com/Peterloveprogramming/SmartBrain>

- Implemented Bcrypt encryption to secure and hash sensitive user information, including passwords, within the database.
- Perform regular maintenance and updates on the project to ensure it remains up-to-date with the latest versions of npm packages.

Web Developer

Open Source Projects Contributor

📅 2023 - Present 📍 London, UK

Actively contribute to open-source GitHub projects as a web developer and collaborate with diverse teams of developers, participating in code reviews, issue tracking, and project discussions

- Develop web applications using JavaScript, Python, and HTML/CSS.
- Collaborate with other developers to enhance the code base and efficiency of the application
- Utilize GitHub Actions for version controls.

Tax Accountant

Rubiix Business Accountant

📅 03/2022 - 07/2023 📍 Melbourne, Australia

Achievements

- Collaborated with clients to develop tax strategies for their businesses aimed at maximizing tax savings. Achieved a significant 15% increase in customer satisfaction levels with the firm.
- Provided assistance in training staff on crypto tax regulations while actively supporting the firm's engagement in the web3 space.

STRENGTHS

-  **Adaptability and flexibility**
Strong ability to quickly adapt to different libraries, frameworks and programming languages and technologies, making me a flexible and versatile developer
-  **Problem Solving**
I possess strong problem-solving abilities, adept at quickly identifying and fixing bugs in code, while being able to follow documentation and update code bases to incorporate new changes.

SKILLS

React.js	Node.js	Java Script
Python	Postgres SQL	RESTful API
Git	HTML/CSS	Teamwork
Analytical Thinking		

EDUCATION

Complete Web Developer in 2023

Zero to Mastery

📅 01/2023 - 06/2023

Complete Python Developer in 2023

Zero To Mastery

📅 05/2023 - Present

Bachelor of Commerce (Taxation & Accounting)

Curtin University

📅 02/2020 - 12/2022
