SUMMARY

I am an individual deeply enthusiastic about technology and strongly focused on personal development currently investing 8 hours everyday to enhance my tecnical skills.

I possess expertise in full stack web development utilizing JavaScript and Python. I also specialize in developing serverless architecture solutions on AWS and migrating pre-existing applications from on-premise environments to the cloud, ensuring scalability and exceptional availability.

I am currently studying for the AWS Certified Solutions Architect – Associate exam and learning Linux and Kubernetes.

EXPERIENCE

Full stack developer
