SUMMARY

As a tech enthusiast, I'm pivoting from my solid background as an intermediate accountant into the tech industry.

I have built numerous personal projects using React , Node.js, Python,Typescript and Vanilla JS (HTML CSS and Java Script).

As a growth-oriented individual, I dedicate 4 hours daily to improve my technical skills. My skills span accross web/software development, AWS Cloud, business analytics, accounting, tax,blockchain and more.

I am eager to contribute my skills to a growth-oriented, open-minded firm with visionary business goals, I believe I will be able to contribute to its success

KEY PROJECT

SmartBrain

Link: https://github.com/Peterloveprogramming/SmartBrain

SmartBrain is a full-stack application I've created as my graduation project. This app automatically identifies the face in an image. Users simply need to create an account, sign in, and input the URL of the image they want to use. The application then autonomously recognizes the face in the picture, highlighting it with a square.

- This project follows the best security practices, ensuring the safe storage of user-sensitive information in the database through storage, API calls are made from the backend server, and so on.
- The code base is regularly maintained and kept up-to-date with the newest npm packages,and utilizing Git for version control and contributions.
- Consistently seek new methods to enhance the website speed and optimize the code base.

EXPERIENCE

Intermediate Accountant

Rubiix Business Accountant

📅 03/2023 - 08/2023   📍 Melbourne, Australia

Tasks
- Handle and manage client business data, and provide feedback on their business performance by utilizing risk assessment techniques, analytical thinking and so on.
- Analyze clients' business information and consistently research the most beneficial strategies they can implement to optimize their business operations.
- Train staff in relation to crypto tax and blockchain

CERTIFICATION

Complete Web Developer in 2023: Zero to Mastery
Issued by Zero to Mastery

AWS Certified Cloud Practitioner
Issued by Amazon Web Services

JavaScript Algorithms and Data Structures
Issued by FreeCodeCamp

Solidity Foundation
Issued by Encode Club

SKILLS

React.js   Node.js   Java Script

Python   AWS Cloud   Vanilla JS

Typescript   Relational Data Base

API   Git Version Control

Blockchain

EDUCATION

CS50's Introduction to Computer Science

Harvard University

📅 02/2023 - 07/2023

Complete Web Developer in 2023

Zero To Mastery

📅 01/2023 - 06/2023

Bachelor of Commerce (Taxation & Accounting)
